Our Keynote Presenters:

Dr. Clive O. Callender, MD, FACS is currently a Professor of Surgery, Howard University College of Medicine. In 1973, Dr. Callender returned to Howard University Hospital and helped develop the first minority directed dialysis and transplant center and histocompatibility and immunogenetic laboratory in the US. In 1991, Dr. Callender conceptualized and founded the National Minority Organ Tissue Transplant Education Program (MOTTEP) for the purpose of increasing minority donation rates nationally. National MOTTEP is the first national organization to identify a two-fold solution to the donor shortage.

Dr. Gayl Hubatch, OMD is Doctor of Chinese Medicine and the author of: *Fabric of the Soul: Eight Extraordinary Vessels*. She is also a licensed acupuncturist and nationally board certified Diplomat of Acupuncture through NCCAOM® as well as being a certified yoga instructor and Qigong/Tai Chi Easy™ Senior Trainer. She specializes in acupuncture, herbology, Qigong/Tai Chi, HeartMath Training and meditation at her holistic studio; Blue Heron Center in Lakeway, TX.

Qigong Institute President, Tom Rogers, will provide an update on new Qigong and related research and answer questions related to Integrating Qigong Into Healthcare.

Join Robin Brooks as she explores Tai Chi and Improvisation - Varying the Practice for Enjoyment and Learning. She'll share some learning essentials which will help keep your sessions fresh and engaging.

Whether you are new to Tai Chi or are a long-time practice leader, you will enjoy a Tai Chi Easy™ Tune-Up led by Senior Trainer, Bob Wolfe. Bob's humor and happiness make practice FUN!

Music and bubbles and pinwheels...oh my! Join Deanne Hodgson, RN as she presents, *The Teaching Toolbox - Tips & New Practice Techniques to Share*. You'll learn how to incorporate fun and effective tools to add variety to sessions you lead as well as your own personal practice.

Finding it difficult to get your own personal practice going? Jill Robinson will share ways to build confident, effective solo routines in her presentation, *Building Your At-Home Practice*.

Our Summit Break-Out Rooms will allow you to connect with other like-minded attendees. Network, make friends and share information. Door Prizes, too!

Explore with us and learn from our presenters...

- What is healing? There is natural healing that is always happening in a healthy person, and there is the healing that is assisted by some external aid, such as an herbal remedy, a medication, a procedure, or even an organ transplant requiring immunosuppressive drugs. We can bridge the two!
- Is there a place for Qigong and Tai Chi in healthcare? Learn about the latest scientific research on Qigong and Tai Chi that make the argument to include practice in healthcare.
- How do you spark learning in yourself and in the groups you lead? Explore the essence of the practice through improvisation and in developing a personal at-home practice.
- Do you want to connect with others? Practice leaders, interested members of the public, and people who are drawn to practice will come together to socialize, network and share.
